

— *Annual Production Sale* —

**Feb. 27<sup>th</sup> 2016**

*At the Ranch, Turtle Lake*

[www.DoubleTSimmentals.com](http://www.DoubleTSimmentals.com)

*Welcome* from all of us at Double T Simmentals. It is our pleasure to welcome you to our 7th annual bull and female sale. We are grateful for your interest in our breeding program.

We are extremely excited about our 2016 sale offering. This group represents the best cattle we have ever offered. We strive each year to enhance the overall genetics offering to our customers. We work hard to offer as much information as possible to our customers, to make your decisions easier and more informed. All the bulls have been tested for being homo polled along with all black bulls tested for coat color. Black bulls with be indicated by a BB for homo black and BR for hetero black. Homo polled with be indicated by PP and hetero polled by HP. All the red bulls are diluter free. Which means, if used on black cows, no worries of producing a grey calf. Yearling weights, Hip height and scrotal score will be provided sale day. We elect to wait till sale day to provide this information as each individual needs to be a minimum of 330 days of age for it to calculate into a contemporary group. The longer we wait, the more benefit the data provides for us and ultimately you.

Our philosophy is simple, "Profitability". At the end of the day, the only thing that matters is the bottom line. We strive to breed, raise and sell cattle that are profitable for ourselves and ultimately in the end your operation. API and TI are indexes that are expressed in dollars and cents values. Through mathematical calculations that not only consider the value of outputs (weaning weight or yearling weights) they calculate the cost of inputs (expenses from feed cost, mature cow size, milking ability and others). In the end, this gives a dollar evaluation of the individual's value. If you intend to retain heifers within your operation, make decisions using API. If you sell all females and do not intend to retain any females in the herd, make decisions using the TI index.

The demand for Simmental influenced cattle is growing and stronger than any time before. Cattlemen across the country are looking to the Simmental breed to improve growth,

maternal traits, and overall red meat yield. With the trend of increasing carcass weights and demand for higher quality grading cattle, Simmentals have the traits to help you increase profit and demand.

All great herds have one thing in common, solid genetics. We expect our females to be good uddered, easy fleshing, structurally correct and wrapped up in a moderate sized package. We mate our females to well researched high accurate sires to ensure predictability. We offer you balanced genetic traits that will enhance your bottom-line through the entire offering.

Let us help you find a bull that will fit your program and needs to improve profit and functionality.

Please join us on February 27th for Lunch at 12 with sale to follow at 2 PM.

Thanks for your interest,  
Tim and Tam Clark • Shane and Kayla Swanson • Michael and Jessie Martin

*Location:* At the Ranch – 11 miles north of Turtle Lake on Hi-way 41 to county road 8N (note: do not take county road 8) then west 3 miles on county road 8N.  
From Velva – approximately 30 miles south on Hi-way 41 to county road 8N, 3 miles west on 8N.

*Accommodations:*  
Scotwood Motel, Washburn, ND ..... 40 mins ..... (701) 462-8191  
North Shore Inn, Garrison, ND ..... 30 mins..... (701) 463-7202

*Contact Information:*  
Home..... (701) 448-2815  
Tim Cell ..... (701) 799-7752  
Tam Cell..... (701) 315-0032

*Auctioneer:* Mike Herman ..... (701) 471-5226

*Auction:* Cattle will sell in catalog order. We will be conducting a video auction. The bulls will not go through the sale ring as in most sales. We will have all the lots on video. Videos of the bulls will be played as each lot sells. Bulls will be available to view at any time prior to sale day. For those who view prior to sale day, we will credit you \$50 on a purchase of a bull.

*Terms and conditions:* All cattle sell under terms and conditions of the American Simmental Association and will be available on request the day of sale.

*Risk:* Double T Simmentals will not be responsible for any lost or stolen items or liable for any personal injury.

*Guarantee:* Bulls are guaranteed as breeders; if failing to be satisfactory, they must be reported to us by August 1 2015. Our goal is for each and every customer to be satisfied; in not we will work with each individual to resolve any issues.

*Wintering:* Bulls will be semen tested the end of March or early April. When the bulls have completed breeding soundness exam we will begin delivering. Bulls being winter here will be charged a fee of \$180 per head at time of purchase; which includes feeding, semen testing, delivery and insurance for 6 months.

*Semen Interest:* Double T will retain the right to collect 100 straws of semen on all bulls in the sale for our own use. Double T will also retain 1/4 semen interest in Lots 1, 8 and 9. Buyer will have 3/4 interest and full possession.

Annual Production Sale  
**Feb. 27<sup>th</sup> 2016**  
*At the Ranch, Turtle Lake*

*Herd sires:*

Reg #: 2716179

	CE	BW	WW	YW	ADG	MCE	Milk	API	TI
EPD	8.4	1.8	95.9	155.0	0.37	6.3	22.7	133.9	92.6

HOOKS ATLANTIC 18A was added to our bull battery for his overall performance, growth, and muscle, while still maintaining a low birth weight EPD. Atlantic ranks in the top 1% of the breed for weaning, yearling and average daily gain EPD's. He also ranks in the top 1% for ribeye and Terminal Index. His calves are big topped, big hipped with a ton of performance.

Reg #: 2674963

	CE	BW	WW	YW	ADG	MCE	Milk	API	TI
EPD	13.8	0.6	81.9	120.7	0.24	11.6	20.4	164.0	91.5

HOOKS RED ZONE 79Z was purchased for his flawless structure, EPD profile and overall performance. Red Zone sires calves with low birth weights along with exceptional growth. His calves have impressed us with their overall body mass, depth and muscle.

*Donor Dam*

MS GAMBLER 715T is the mother to our senior herd sire, BTS Shear Brilliance, aka Bubba. She has 4 females retained in our herd. Her females have been productive and easy fleshing. Her bulls are performance packed with superior muscle. Two Yellowstone sons will sell in the 2016 sale. Watch for more progeny in the future.

*Donor Dam*

TT LADY IN RED 931U was brought into the donor pen for her massive build, rib shape and overall performance. She brings an outcross pedigree with power. Three Hoosier bull calves sell in this year's sale. Look for her and her daughters' progeny in future sales.

Black Market 123C is one of our favorites this sale year. He is moderate framed, deep sided and big topped. Plus check out his numbers. 12 CE, .5 BW, with a 73 and 118 for growth EPD's. Calving ease, low birth weight with all the growth you will need. His Sire, Hooks Atlantic ranks in the top 1% of the breed for WW, YW and ADG EPD's, Black Market will add power and muscle to his future calf crops. His mother is a young cow that is already making her mark here. In 2014, her son topped our sale that year, and last year had a heifer Tested Homo Polled and Black

TT Front Runner 201C was the Front Runner at weaning and has not slowed down. He is still the pacesetter for ADG and YW to date. He recorded an 890 adjusted 205 day weight that was number one in his contemporary group with a whopping 122 ratio. His growth EPD's for WW and YW rank him in the top 1 and 3 %, with BW EPD of less than 1 and Calving ease over 13. This Yellowstone son is performance bred and has excelled all year. His dam raised the Bubba son that was one of last year's high-lights, Front Runner will be this year. Tested Homo Polled and Black

These 3 Hoosier calves are flush mates out of Lady in Red 931. This super donor cow has done it all here, she began it all with a show career being named Champion female many times. As a cow, she has been a top performer and now has entered to the donor pen. TT Precision is red son of the flush who exhibits tremendous muscle with excellent rib shape and volume. TT Hoosier 495 and TT Big Ticket are hetero black and pack with power. They both tallied an adjusted weaning weight of 840 pounds and continue to perform toward the top of the group.
